

Cold House

Archie_Marais (feat. Siba Holani)

Verse 1:

I took the wrong road

I'm falling into you

They told me once they told me twice

I did not listen, nor did I survive

You tore my heart out, you cut my love out

Main part:

You can have it all and take it all

It's what you said when we were strong

It's what you meant, but now you're gone

What you meant, but now you're gone

Now you're gone

Bridge: (x6)

I can't feel my hands

I can't feel my feet

In this cold house, in this empty room
