

Past Remains

Archie_Marais (feat. Jandre Spangenberg)

Verse 1:

Zooming past different faces,

Trotting through different places,

Life is just passing by,

I'm living such a lie.

Plugging in to different sources,

Fighting against different forces,

Reaching hands towards the sky,

Life is just passing by,

Passing by (x4)

Main part: (x3)

Come fill my lungs and feed my veins,

I'm letting go of past remains.

Come fill my lungs and feed my veins.

Verse 2:

Fill me with your air in motion,
Back and forth like the blue ocean,
I'm going slowly under,
Crashing waves sound like thunder.

Bridge: (x2)

I'm going down,
I'm going down,
I'm going down, down, down.

Main part: (x3)

Come fill my lungs and feed my veins,
I'm letting go of past remains.

Come fill my lungs and feed my veins.

Coda: (x2)

I'm breathing,
Heart beating,
Suddenly life has new meaning.
